WILL EMPHASIZE  
OBLIGATION TO  
SOLDIER SAYS COX

Governor Pleased With Reception Given at Camp Perry.  
TO SPEAK SATURDAY  
Candidate Has Sore Shoulder From Shooting.

Columbus, O., Aug. 13.—Obligations of the United States government toward men who participated in the world war will be emphasized in future addresses by Governor James M. Cox, Democratic presidential nominee, the governor stated today.

"I was well pleased with the reception given to my utterances on this subject yesterday at Camp Perry," said the Governor, "and it is very likely that this matter will be taken up and elaborated in later speeches."

"Those men who earned promotion in the war should be given the higher rank regardless of whether they are still in the service."  
"In most instances, the government could carry out the obligation with little or no expense, and the moral duty of the country in this matter is perfectly clear."

Governor Cox arrived in Columbus from Camp Perry at 10 o'clock this morning and almost immediately started work on the two speeches he will deliver Saturday at Wheeling, W. Va.

In the afternoon, the governor will speak before the Democratic state convention in session there and in the evening he is scheduled to make an open air address. He will go to Wheeling by automobile, starting early Saturday morning and will stop at a farm house enroute for a chicken dinner.

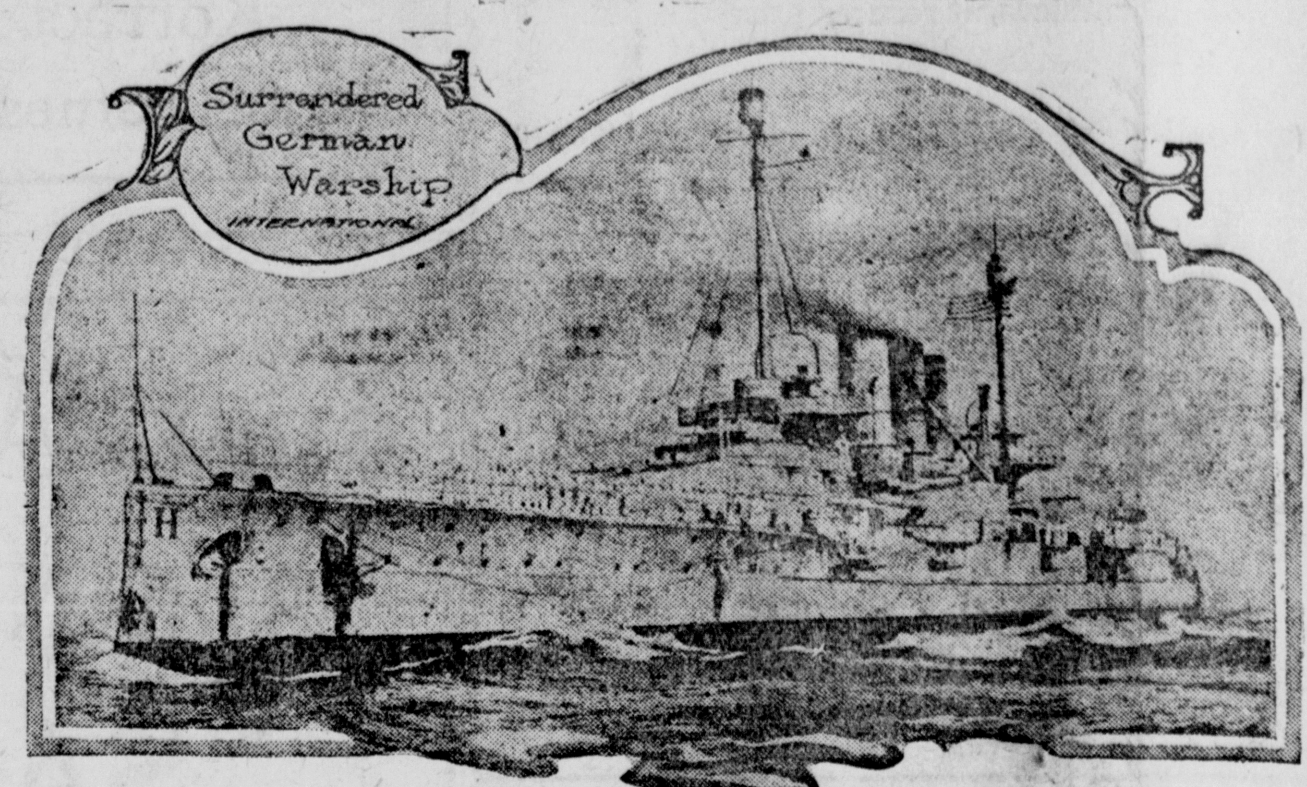

Except for a slight soreness of the shoulder, due to his participation in the target shooting, at Camp Perry yesterday, the governor was in excellent condition today, and said he believed the headaches which had been troubling him are "gone for good."

BATTLE SCARRED GERMAN WARSHIPS ARRIVE IN U.S.

Five battle-scarred rusty German warships, grim reminders of the World War, steamed into New York Harbor several days ago. In the photograph is shown the dreadnought Ostfriesland, one-time pride of the German Navy, as she steamed up North River, New York. The Ostfriesland was the flagship of Vice-Admiral Schmidt who commanded Battle Squadron No. 1 at the battle of Jutland. In that engagement the German craft was said to have sunk the British cruiser Black Prince. Surrendered to the British at the close of the war, the Ostfriesland was one of the vessels scuttled at Scapa Flow by its German crew. The German war prizes will be on exhibition in New York for two weeks, after which the Ostfriesland will leave for a tour of Atlantic and Pacific ports. The four other vessels will be towed to Newport News to be used as targets for American gunners.

COAL OPERATORS  
MAY BE INDICTED  
AS PROFITEERS

Federal Attorney Examining Mass Of Evidence.

Columbus, O., Aug. 13.—Indictment of a number of Ohio coal operators and brokers for alleged profiteering may be asked at the hands of the federal grand jury here.

Assistant Federal District Attorney Ford here today is examining a mass of evidence gathered by department of justice agents, who during the past three weeks, have been investigating the records of coal operators and brokers in the southern Ohio district.

Attorney Ford said that warrants would be issued in an attempt to have the next federal grand jury return indictments, if his examination of the evidence convinces him that there has been profiteering.

It is claimed that in most instances it was the operators and not the brokers who raised coal prices. These advances were due, in part at least, it is said, to competitive bidding at the mines by large industries and export buyers.

AMERICAN PROTEST  
CANADIAN HURDLER  
BUT PLEA IS DENIED

Belgium Royalty to Visit Olympic Game This Week

Antwerp, Aug. 13.—The report of the American Olympic committee protesting the entry of E. Thomson, the Canadian hurdler, has been denied, but the committee may lodge another protest, against the entry of the Canadian boxers.

The king and queen of Belgium, prince Leopold and Princess Marie will attend the Olympic games from Saturday until Tuesday a great celebration having been arranged for the royal family.

The American team trained yesterday at Middlefield park. Sunday's Olympic schedule include the javelin throw, the 800 meter run, the 100 meter dash and the 400 meter hurdles.

The American and Swedish teams were annoyed today by the Olympic rules committee's decision to allow any nation more than three starters in any event. The awards for the first, second, third, fourth, fifth and sixth places respectively are: Seven, five, four, three, two and one. There will be no penalty for false starting.

HARDING CONSIDERS  
PLAN OF VISITING  
TWIN CITIES SOON

Senator May Make the Tariff a Campaign Issue.

Marion, O., Aug. 13.—A trip by Senator Harding to the twin cities of Minnesota early in September to speak on agricultural issues at the state fair is under serious consideration. After a conference here with Minnesota Republican and agricultural leaders, he said he felt strongly inclined toward acceptance. Labor day was the date suggested for the Minnesota address.

That Senator Harding also is thinking of the tariff issue as a feature of his campaign was revealed by him in making public a telegram to California regarding the fruit industry. The telegram said the Republican party would stand for protective schedules to prevent injury of American interests by after-war competition, and Senator Harding added that he felt the tariff question was bound to come more and more to the front during the next few months. "The wool situation is even more distressing than the fruit situation in California," he said, "and I believe we shall more and more feel the need of a protective tariff before the year is out."

ARMY ENLISTMENTS  
GOING MERRILY ON

Washington, Aug. 13.—A total of 15,821 men were accepted for enlistment in the army during July, according to a statement issued from Adjutant General Harris' office. This was considered more notable because in that month in the past recruiting has been slack. Educational and occupational advantages offered in the army are assigned for the increased number of enlistments. There are now 105,000 soldiers studying in the army schools.

Old Colony Foreign Exchange Company Draws Fire.

OFFERS 100 PER CENT

Claims Millions To Be Made In Foreign Exchange.

Boston, Aug. 13.—With Charles Ponzi's fifty per cent in 45 days money making scheme officially halted by his arrest, Attorney General Allen today announced he had launched a state investigation of the Old Colony Foreign Exchange Company. This concern which sprung up as a Ponzi rival offers investors 100 per cent in six months.

The Old Colony Company has a main office here and branch offices have been opened in several cities of the state. The New Bedford branch has been closed by order of district Attorney Kenny of Bristol county. In Boston the concern has disregarded a warning from District Attorney Polletier to close.

Thousands of investors have been flocking to the company's offices, according to officials.

C. M. Brightwell, president of the company, states that the company has thousands of dollars in banks in Europe and is going to do a tremendous business in everything from a spoon of thread to machinery. He said:

"There are still thousands upon thousands to be made in Europe on international coupons and stamps. There is considerable to be made in the purchase of money, water and similar bonds. We intend to make thousands for our clients through the agencies."

DR. PALMER'S LAST  
LECTURE FRIDAY

Thursday was a Great Day at the Bible Conference. Dr. Palmer's work in the harmony of the Gospels is exceedingly admired by all. The one hundred questions submitted to those who so kindly volunteered to enroll as students for a Bible test, and who showed their familiarity with the word of God was one of the most pleasing features of the day. Dr. Palmer delivers his last lecture today and all are sorry to see him leave. He is truly a Great Teacher of the Word.

Dr. Russell's vesper hour is very helpful and stimulating. If you are hungry for a good gospel message, hear him tonight.

2 REVOLVERS FOUND

Man, Though Married, Loves Child Menial.

Emmitsburg, Md., Aug. 13.—An investigation is in progress of an extraordinary tragedy.

J. Ford Thompson, 49, clubman of Washington D. C., noted traveller and artist, and Mary Sneeringer, 16, attractive hotel waitress, were found dead in a forest near here. By the two bodies was an open book of love sonnets and two revolvers. Both the girl and the man had bullet wounds in their right temples.

The tragedy came to light after Mary Sneeringer had disappeared from her aunt's hotel here, where she had been employed. In her room was found a note bidding goodbye to the world.

While the authorities have as yet failed to establish a definite motive for the tragedy, it is believed that the two agreed to die together, after Thompson had been told that he must discontinue attentions to the girl because of her extreme youth.

Thompson was the son of the late J. Ford Thompson, the noted surgeon. He has a wife and a 11-year-old child in France. Thompson fought with Colonel Roosevelt's rough riders during the Spanish-American war. He is well known in European capitals.

POLES RETREAT  
ALONG ONE FLANK  
BEFORE THE RUSS

State of Siege is Declared In The City Of Warsaw.

Warsaw, Aug. 12.—Via London August 13.—A violent battle is raging over a 100 mile front north-west and north of this city. Terrific hand-to-hand fighting is in progress.

The Poles are retreating along the left flank.

A state of siege has been proclaimed in Warsaw.

The Russians are reported to have captured Pultusk, 26 miles north of Warsaw.

The Polish defenders of Malva, on the Warsaw-Danzig railway have surrendered without fighting.

The city was surrounded by red cavalry and the Poles could make no defence.

Russian detachments that outflanked the left wing of the Polish army northward of Warsaw are advancing toward Plock on the Vistula river.

Masses of Russian reinforcements were thrown into the engagements in an effort to break through. Two thousand Polish cavalrymen are being rushed up to the front to attempt to stem the red onrush.

A new Polish arm is being organized at Posen.

The government is anxious over the situation but has announced it will remain in the capital to the very last.

All possible volunteers are being flung into the battle by the Poles. They are being massed in the last line of defence on the northwestern and northern fronts.

At the point where the Polish resistance gave way, the Poles retreated so precipitately that they lost contact with the Russians. At other places the Poles launched savage counter assaults and succeeded in stemming the Russian advance.

Fierce fighting is taking place around Pultusk, where the Russians are swinging around southward in direction of Nasielsk, ten miles south of Pultusk.

Fighting is increasing in violence on the southern front but there have been no important developments on center, according to dispatches from field headquarters.

General Budenny's red cavalry army is acting as the advance guard. It has reached the line of Radziechow-Cholozow, leaving the infantry to follow.

POLAND WANTS TO BUY  
WAR MATERIALS FROM  
THE UNITED STATES

Also Seeks To Recruit Men For Her Army Here

Washington, Aug. 13.—Moved by the reiterated pleas for aid from the Polish government, the war department had under serious consideration the request of Prince Lubomirsky, Polish minister for permission to purchase war materials from the United States. The state department also took up the problem of finding means of reinvigorating the fast ebbing strength of the Polish state and thereby of fulfilling the assurance of support to the Poles contained in the recent American note to the Italian ambassador.

Polish officials explained that in addition to the desire for war materials, they were most anxious to obtain authorization of the United States to permit recruiting by Poles in America for the Polish army. It was said that not only had many offers of enlistment been received by the legation from Polish citizens resident in the United States, but that many offers had come from former American veterans of the world war.

While a statute forbids enlistment of armed expatriates in the United States for employment against a friendly power, some officials claimed the president had authority to suspend operation of the law under his wartime powers.

Without foreshadowing a similar step by the United States, officials declared that the action of France in recognizing General Wrangel was in no way inconsistent with the policy towards Russia advocated in the American note to the Italian ambassador.

## RAILWAY COMPANY TO LOWER TRACKS GRADE ALONG CITY STREETS

After twenty years of negotiations between the Baltimore and Ohio Railway Company formerly C. H. and D. and the abutting property owners along its right of way, the company is finally beginning the actual work of lowering its tracks from Dayton avenue to their junction with the Pennsylvania.

When the C. H. & D. laid its tracks years ago, the city failed to establish its grade and during the intervening years the Company has continually raised its tracks to suit its own convenience. The property owners enjoyed and fought but to no avail.

One of the first matters taken up by the city under Commission Manager form of government was the matter of establishing the grade of this section of track. The engineers employed by Xenia consulted with the Railway engineers at a meeting in Dayton and it was finally agreed by the Railway company to lower a section of track of about 2,000 feet lying between Dayton avenue and the junction with the Pennsylvania tracks. The work will cost the company a considerable sum of money and it is believed by City Manager Riddle will increase the value of abutting property, \$10,000.

The fact that the work has actually commenced was reported at Commission meeting Thursday night.

City Auditor Zell reported at the meeting that the Water Works recently taken over by the city is in splendid financial condition. Every user of water has paid his bill, and there are no outstanding debts for service. The new rules adopted by the company after it was taken over by the city have been carried out by the consumers without protest.

City Manager Riddle reported that the excavation for the new Filtration plant for the Water Works has been completed, the equipment is in place and the work of construction will be begun at once. The plant will be built at Oldtown.

### Reds Attack Wrangel's Army.

Constantinople, Aug. 13.—Bolshevik forces in southern Russia are striking at the extreme flanks of General Baron Wrangel's army north of the Crimean peninsula, according to dispatches received in this city. Three soviet divisions, totalling 6,000 men, crossed the Dnieper river on Aug. 7 at Aleksh, almost directly across the stream from the city of Kherson, and advanced several versts southward.

## REORGANIZATION OF RED CROSS CHAPTER APPROVED THURSDAY

A plan for reorganizing the Greene County Red Cross Chapter was approved Thursday evening by the board of directors, at the first meeting which they have held for several months. The reorganization is being urged by the executive committee in order that all parts of the county may take a part and interest in the chapter government. At present Red Cross affairs are being managed by the executive committee consisting

of five persons, all of whom are residents of Xenia. Money raised in Xenia and Xenia township is used for paying the bills of the county work, and the various branches are then assessed for their proportionate share of the expense. This arrangement is in accordance with Red Cross regulations but has not been entirely satisfactory either to Xenia or to the rest of the county.

By the new plan a branch or branches would be organized for Xenia and Xenia township so as to put that territory on an equal footing with the rest of the county. Xenia money would be kept in the branch treasury and used for local expenses, with the exception of Xenia's quota of the county expenses. The directors would adopt a budget in advance and the quotas paid in by the branches would constitute the Chapter funds to be used in the

county work. The executive committee of the Chapter should include members not living in Xenia and should report at not too long intervals to the board of directors on which all the branches are represented.

A meeting of Red Cross members of Xenia and Xenia township to discuss the formation of a new branch (or branches) is called for next Tuesday, August 17th, at 8 o'clock, in the city building.

The plan will be brought up for final action at a county conference to be held Thursday, August 19th, and it is hoped that the new system can be put into operation by October.

## CUPID AND GOD

### HYMEN FRUSTRATED

Cincinnati, O., Aug. 13.—The hopes of marriage of Homer Summers, 19, were shattered when Juvenile Superintendent Abraham Abrams informed him Georgia Bollin, 15, of Huntington, W. Va., visiting relatives here, was too young to marry.

"She told me she could cook, wash and iron and that's the kind of girl I want," said Summers.

The girl's father, a miner, will take her home.

## EX-GOV. WILLIS NOMINATED TO SUCCEED HARDING IN U. S. SENATE.

Frank B. Willis, former Governor of Ohio and Republican nominee for the United States Senatorship, on Wednesday conferred with Senator Warren G. Harding, Republican candidate for the presidency, at Marion.

Willis was elated over the returns of the Republican primary election, in which he was shown to be an easy winner over his rivals for the Senate seat now occupied by Harding. The former Governor will leave soon for a speaking tour in Kansas.

"The primary election campaign in Ohio has been animated," said he, "but no personalities were injected into it at any time. All the candidates devoted their work to the discussion of issues, and I don't think there will be an uncomfortable feeling anywhere. The party is in excellent condition to back the ticket, and there will be no disaffections growing out of the contest. After my speaking engagements are fulfilled in Kansas and New York I will be at the service of the State and National Committees for the campaign, and will go wherever they send me."

The latest reported result of the contest of the candidates for Senator Harding's present office is as follows: Frank B. Willis, 121,533; Walter F. Brown, 83,525; Judge R. M. Wanamaker, 48,272; Macey Walcutt, 6,923; J. Y. Walser, 6,103.

We have heretofore published the statement of Congressman Fess, telling why he was going to vote for Brown for Senator, but saying on account of his position as Chairman of the Congressional campaign committee, he did not attempt to influence anyone else to do so. It seems he attempted to influence Frank B. Willis not to enter the race, but Willis did enter the race, and won out nicely. Willis is considered a clean and good man. He will make a splendid successor to Mr. Harding in the U. S. Senate.

## ECHOES FROM TUESDAY'S ELECTION.

The dictionary meaning of the word "Strategy" is the use of artifice in carrying out some design. It is claimed that we have a case in point in the nomination, on Tuesday, of Henry L. Davis, former Mayor of Cleveland, as the Republican candidate for Governor this fall, in keeping on the ticket three other candidates for the office. Reports showed that the rural vote was divided between Ralph D. Cole and Congressman Roscoe C. McCulloch, of Canton, thus vindicating the strategy of the Davis management outlined when the campaign was begun, and also in the encouragement of David Wesley Wood, of Mt. Vernon, now at the State Soldiers' Home at Sandusky, to remain before the voters as the last candidate of the veterans of the Civil War.

The returns show that the division of the total vote saved Davis, but who is in the minority by almost 60,000. McCulloch, who finished third, will receive more than 62,000 and Wood over 14,000.

This same condition is found in the Senatorial contest, which was won easily by former Governor Frank B. Willis over former State Chairman Walter F. Brown, of Toledo; Justice Reuben M. Wanamaker, of Akron; Macey Walcutt, of Fairfield County, and J. P. Walser, of Akron.

While Davis's lead over Brown, his nearest competitor, is a long one, he is in the minority in the total by almost 25,000. Justice Wanamaker, who was third, drew almost 50,000 votes which, if they had gone to Brown, would have resulted in Willis's defeat. Both he and Congressman McCulloch were rated high, but the results make it clear that they merely were the pawns in the game of men more skillful, if not so well equipped.

We are not able to say whether this kind of strategy in keeping "pawns" in the field as candidates played a part in our local election on Tuesday, but are inclined to the opinion that all the candidates were bonafide seekers for the several offices.

## DAREDEVIL DICK—HIS CATAPULT PROVES A DANGEROUS PLAYTHING

## EVIL TIMES.

Oh, these are crucial times, my friends; each day presents its warning; and every time the night descends we think there'll be no morning. Our statesmen rag us from the dump, where all the bow-wows gather. Our sacred rights are trodden flat, our bulwarks badly shaken, and if we don't do this or that we're bound to lose our bacon. It is the bogie, gray and old, of Presidential seasons, the wrath that makes our feet grow cold, and undermines our reasons. At other times we do not think of chaos, in our hurry; our bulwarks may be on the blink, but we don't pause to worry. The country seems to slide along, and nothing yet has wrecked it, and if its works are badly wrong, we simply don't detect it. And then we put up candidates to cop the White House honor, and these potential magistrates insist the land's a goner. If t'other fellow wins the prize, becomes the nation's master, then we'll confront, with startled eyes, all kinds of black disaster. Once in four years we get this scare, when candidates assemble; we walk the edges of despair, and wring our hands and tremble!

## SNAKE APPEARS IN PRESSROOM

There were loud and insistent calls, upon St. Patrick around the office of the Gazette and Republican Thursday afternoon.

The newspaper folks like the majority of others thought that snakes had disappeared from this country with the advent of prohibition.

That is, they did think that up until Thursday afternoon when a snake, three feet long, ambled in through a window of the press room and began an inspection of the latest in press art.

He had barely poked his head into the place however, when he was seized by John Atkins colored pressman, who took him home for a pet. The snake is believed to have escaped from a concession man who had a sideshow at the fair last week and brought his pets to the empty lot next to the Gaette building Saturday.

Lexington, Mass., Aug. 13.—Chas. Ponzi whose money making scheme has collapsed, has been threatened with death, it became known here at his home today. A "black hand" letter has been received by Ponzi and as a consequence armed guards about his home here have been doubled.

The writer of the death threat boasted that he had pursued Ponzi all over the country for 12 years ever since the breaking of the "get rich quick" bubble in Montreal in which Ponzi admits he was involved.

Ponzi refuses to say whether he knows the man. Ponzi admits that he fears somebody else may be "laying for him" because of losses suffered in the closing of his Boston office.

## Heart and Home Problems

Dear Mrs. Thompson: I am a young lady eighteen years of age and am very much in love with a young man eight years my senior. We have gone together since the 27th of June, 1919. He has been very good to me and always said he loved me.

We were engaged, but a tale got started that I had gone with another fellow and he got angry and asked me to break the engagement, which I did. Now he has found out it was a lie and has apologized and is just as loving and true as ever, but he never speaks of marriage any more. Do you think he ever will again?

When we broke up he refused to take his ring. Should I make him take it now? D. E. L. Since you have kept the ring, and if you wear it on your engagement finger, he probably takes it for granted that you are engaged. Be patient and he will mention the subject in time. You can judge for yourself if he still cares for you by the way he acts and what he says. Do not return the ring unless you decide he does not love you and the engagement is broken.

Dear Mrs. Thompson: Last summer I went out in the world to start to work, which I always was anxious to do. I never knew what were girls such as I got acquainted with—oh, the paint, staying out till the mornin', drinking and going out with strange boys! That is the kind of girls I met, but I never went any place with them.

When I started I met the sweetest girl, so darling. She asked me to go to lunch with her and treated me so lovely I will never forget her. But she is one of the wild ones. I did not know it until I worked there a couple of weeks. Then the girls told me. I could hardly believe it, but it is so because I have seen it since then. She is my age, just sixteen, but looks much older and I much younger.

I can't sleep nights nor enjoy anything for she is on my mind constantly and it worries me to think she will never get what she has lost. Girls have told me she doesn't act wild around home and her mother thinks the world of her. I am sure what she is. I don't

believe anyone can dislike her for she is sweet and darling even if she is wild.

Is there any way I could get her to do better? I hate to tell her she is doing wrong for it would seem so queer and then I believe she would laugh at me. I wonder if I could write to her mother and tell her all without writing my signature. I am afraid my folks would think I am absolutely crazy if they found out I did it. That is why I would like to send it without my name. Please don't think I am foolish for loving her, for I know you would too if you would see her. I think there will be something dreadful happen to her and I know her mother would feel terribly if she didn't know. I have seen her mother at church and she is also darling.

Yes, I can see why you love the girl. She has a rich nature, full of good qualities. Unfortunately her love for excitement and her curiosity have not been well directed and she is heading toward disaster. To interfere in any way would not be minding my own business. I believe, however, that you can tactfully express your opinion. Do not report the matter to her mother and do not be afraid of the consequences of your interference. What if the other girls do hear about it and you are laughed at? The fact that you have tried to help some one should be enough to comfort you. Her pride will be so hurt by what you say that she will not mention the matter to any one, I believe.

It seems to me that you should talk to the girl herself. Do not hurry because what you say will be more effective if you wait until opportunity presents itself. Some time when you and she are together and she says something which would give you a start, tell her that you think she is spoiling a beautiful life. Express your appreciation of her good qualities and suggest that she could be so worthwhile if she sacrificed momentary pleasure so that the rest of her life would be better and happier. Suggest that you think she will marry and then she will want a spotless past so that she will not need to tell or hide from the man she loves something unworthy.

# OHIO WILL AGAIN LEAD IN NUMBER OF PRESIDENTS

With Ohio certain of furnishing the next President of the United States, this state will soon again be in the van in the matter of number of presidents that have come from its borders.

At present Ohio, Virginia and New York are tied for honors in that respect each state having supplied five chief executives. The coming presidential election will break that tie and give Ohio six presidents when either Harding or Cox is declared winner in November.

From Virginia have come the earlier presidents all of them born before the nineteenth century and none of them serving later than 1845 as head of the nation. They are George Washington, Thomas Jefferson, James Madison, James Monroe and John Tyler. All have been born in Virginia.

Ohio's presidents have been stretched over the life of this country. Four out of the five have been born in Ohio and the other in Virginia although later becoming an Ohio resident. They are William Henry Harrison, Rutherford B. Hayes, James A. Garfield, William McKinley and William H. Taft. Both Harding and Cox were born in this state.

Five presidents have been furnished by New York but only three of them were born in that state, one other coming from Vermont and one from New Jersey. They are Martin Van Buren, Millard Fillmore, Chester A. Arthur, Grover Cleveland and Theodore Roosevelt.

From Tennessee have come three presidents from Massachusetts two, two from Illinois, and one each from New Hampshire, Pennsylvania, Indiana, Louisiana and New Jersey.

## FOUR ARE HURT, ONE SERIOUSLY IN TWO AUTO ACCIDENTS

Dartons, Aug. 13.—Three women were hurt, one of them seriously, and a man was badly cut about the body in two automobile accidents here last night.

The injured: Mrs. C. S. Lessner, 1601 North Main street, in a semi-conscious condition at her home. Believed to be injured internally.

C. S. Lessner, her husband, cut on left knee, right leg and other wise bruised about the body.

Mrs. Ammer McIntire cut about the face and hands. Condition not serious.

A nurse employed by the Delco. Name unknown. She was not badly hurt.

Mr. and Mrs. Lessner were driving east on the Bessie Little road about nine o'clock last night. As they neared the intersection of the Troy pike, the Lessners car broke down. Mr. Lessner drove to the side of the road and while there a northbound automobile ran into his car. His wife was thrown from the automobile.

According to Mr. Lessner the other automobile was driven by Orval Overholzer, 620 Reibold building.

To avoid striking a rut in the road an automobile driven by Mrs. Ammer McIntire of Dayton crashed into a pole at the Wilmington pike and Patterson road yesterday afternoon. In the car with Mrs. McIntire was a nurse employed by the Delco. She was hurt about the face and hands.

She was given first aid treatment at the Miami Valley hospital. Later she went home.

## OHIO EDITORS MEET WITH SEN. HARDING

Marion, O., Aug. 13.—The men who edit the newspapers of Ohio were to gather here today with Senator Warren G. Harding, the Republican nominee for president.

At the Marion club—and not from the front porch of the Harding home—they were to listen to an impromptu address by the senator.

The gathering was to be under the auspices of the Ohio State Editorial Association. Both Republican and Democratic editors were to be present.

As the publisher of Marion's principal newspaper, the Marion Star, the senator planned to discuss with the visiting editors the relation of a newspaper to a political campaign.

The real theme of what he would have to say he preferred to keep secret," he said smiling, "until he had a good chance to tell the editors just what he thought of them."

A week from today the senator will receive past and present members of the Ohio assembly.

**HAVE DARK HAIR AND LOOK YOUNG**

Nobody can tell when you Darken Gray, Faded Hair with Sage Tea.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

**A well-known downtown druggist** says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use. Too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

## JULIAN LEADING IN RACE FOR SENATOR

Columbus, O., Aug. 13.—With only about 50 precincts missing, W. A. Julian, Cincinnati manufacturer, today has a lead of 2,328 votes over Police Judge A. P. O'Neil, Akron, in the race for the Democratic nomination for senator. Returns give Julian 64,526; O'Neil 62,198.

Returns from all except about 70 precincts show Joseph T. Tracy is leading E. M. Fullington by 2,643 votes for the Republican nomination for state auditor and that Judge Frank W. Geiger, Springfield, is slightly ahead of Attorney C. T. Marshall, Zanesville, in the contest for the Republican nomination for chief justice of the state supreme court.

Former Secretary of State W. D. Fulton is believed to have been renominated by the Democrats. State Senator Howell Wright, Cleveland, apparently, has been nominated by the Democrats for the lieutenant governorship.

The plurality of former Governor Willis, who received the Republican nomination for U. S. Senator, is now in excess of 50,000 votes. It appears that the plurality of former Mayor Davis, Republican gubernatorial nominee, will be about 16,000.

### Gets Pleasant Surprise

"About 6 months ago my father was very sick with his stomach, which had been troubling him for several years. Three doctors said he had cancer and one said it was all stones all agreed an operation necessary. But on account of his age I was afraid to risk it. I told a friend about it who said his wife had been through the same trouble and had been cured by taking May's Wonderful Remedy. I at once bought a bottle for father and he is now as strong as a bear and can eat more ham and cabbage than any three men." It removes the catarrhal mucus from the intestinal tract, causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at Sayre & Hemphill's and druggists everywhere.

### A MEDICINE OF MERIT

A proprietary medicine, like everything else that comes before the public, has to prove its merits. The law of the survival of the fittest applies in this field as in others. The reason for the tremendous success of Lydia E. Pinkham's Vegetable Compound is because it has been fulfilling a real human need for forty years, so that today thousands of American women owe their health and happiness to the marvelous power of this famous medicine, made from roots and herbs—nature's remedy for woman's ills.

Mr. and Mrs. Raymond J. Coy of the Fairfield pike are the parents of a baby daughter born Thursday morning. She has been named Mildred Louise.

## 'MY STOMACH WAS IN AWFUL SAPE'

Was also badly constipated; had no appetite and rest was broken at night. Gives praise to Drego for quick relief.

"I have taken the new root and herb juices remedy, Drego, and find that it had materially helped my indigestion. My bowels now move smoothly and regularly every day, and I have more vigor, energy and vitality than in a long time. Although I am 65 years old, Drego has done me worlds of good." These are the words of that highly respected citizen, Mr. J. M. Orr, of 125 Edgewood Ave., Dayton, O., in a signed statement for publication.

Like hundreds of others he didn't think anything could relieve him. He had lost faith and given up hope content to struggle through existence as best he could. Like scores of others, some friend told him about Drego, and the wonderful work it was reported to be doing in just such cases as his. He tried it as a last resort, and now, after only one bottle, he gladly tell the world how it wiped out his ailments and he is once more able to enjoy his work and his meals.

Men and women who think their cases hopeless, are advised to try Drego, and see for themselves why hundreds of others are now praising it wherever they go. Stomach troubles, catarrh, constipation, kidney and liver complaints, blood disorders and similar diseases, are reported every day quickly relieved by this wonderful medicinal discovery.

All druggists now sell Drego and it is being especially introduced in Xenia by Sohn's Drug Store.

FELIX ADLER

August 13, 1851

Felix Adler, one of the leading educationalists in the United States, was born in Germany on the 13th of August, 1851. His father was a Jewish Rabbi who emigrated to the United States when Felix Adler was six. He was so brilliant mentally that he graduated from Columbia College when he was 19. Not content with this, however, he went to Europe and took his degree as Doctor of Philosophy when he was twenty-two. A year later when most boys were just out of college he was professor of Hebrew and Oriental literature in Cornell.

A couple of years later he established in New York the Society for Ethical Culture, to the development and extension of which he has devoted a great deal of time. Under his supervision the Society became a very important factor in educational reform in New York City. It established technical training schools and kindergartens on an entirely different principle from the one then in vogue. Dr. Adler also established a system of district nursing in the poor quarters of the city and secured the erection of model tenement houses and put through many laws for tenement house reform. He has written a great many books on ethics, politics and religion.

### USE UP SOUR CREAM.

**Sour Cream Cucumber Dressing.**—This famous old Southern dressing can be served on cold meats, fish or salad. Pare and grate one medium-sized cucumber and then put through a sieve to remove the seeds. Now mince very fine two red peppers, one medium-sized onion. Add to the cucumbers, peppers and onions one teaspoon of salt, one teaspoon of paprika, one teaspoon of mustard. Stir to mix and then fold gently in one cup of sour cream which has been stirred stiff.

**Sour Milk Biscuits.**—Place in a mixing bowl one cup of sour milk, one and one-quarter level teaspoons of baking soda, one level teaspoon of salt, two level tablespoons sugar, two level tablespoons of vegetable cooking oil. Beat to mix thoroughly and then add three and one-half cups of flour. Work to a smooth elastic dough and then turn on a pastry board and pat out one inch thick. Cut and then place on a baking sheet and bake in a hot oven from 12 to 15 minutes.

**Sour Milk Gingerbread.**—Place in a mixing bowl three-quarters cup of molasses, one-half cup of sugar, two-thirds cup of sour milk, one

teaspoon of salt, one and one-half teaspoons of cinnamon, one teaspoon of ginger, one-half teaspoon of allspice, one-half teaspoon of cloves, two and one-half cups of flour. Beat to mix and then turn in well-greased and floured loaf-shaped pan and bake for fifty minutes in a slow oven. Raisins, chopped nuts and coconut may be used for variety.

### MADE DISHES.

**Tuna Fish Loaf.**—One pound can of tuna fish, two eggs, one-half cup water, one-quarter teaspoon celery salt, one cup bread crumbs, one teaspoon baking powder, one teaspoon salt, juice of one-half lemon, speck of cayenne. Mix thoroughly, pack in buttered bread tin or mold. Bake in moderate oven until nicely browned. Turn out onto serving platter. Pour parsley sauce over. Serves six nicely.

**Beef Pie.**—Buy two or more pounds of neck and shank beef. Cut into small pieces about walnut size with sharp knife, roll in flour and brown in hot fat in skillet. When browned all over add hot water to cover and simmer very slowly for about two hours, adding water from time to time if necessary. Then add thickening to make plenty of gravy, and pour half of gravy out onto a bowl. Butter a baking dish and arrange first a layer of meat pieces, then one of diced vegetables. Cover with gravy and pie crust. Bake in hot oven.

**Meat Loaf.**—Take one pound of ground beef with little ground suet mixed through, salt, pepper, stale bread ground fine, one egg and small piece of butter. Form into a loaf, then make incision along top of meat loaf and place two hard-boiled eggs, then mold over so the eggs will be covered. Place in savory roaster and bake about one hour.

## "JUST A GIRL"

BY JANE PHELPS

### VARIED EXPERIENCES

#### Chapter 89

I had been back only a few days when I realized the doctor was right. The work, the standing and carrying heavy trays, was too much for me. I did not give up entirely, but I looked after the buying, the tables and so on. At the same time I looked for an office position. I met with many rebuffs, but I also met with kind words and encouragement.

"When you have had a little experience come and see me again. I could not take an inexperienced girl," one kindly man said. Another "If you want a position of this kind you must perfect yourself in shorthand. Typing alone will not do."

When I told Mary how kind these men were, she sniffed and said: "I know the kind! They let you down easy."

"Anyway it makes one feel better than to be talked to as some of them talked to me—snapped me up as if I had done something wrong in asking for work."

I worked hours every day on my typewriter and was slowly but surely gaining speed. Two evenings a week I attended a shorthand school. The little pot hooks made me lots of trouble, but I had heard of the good salaries office girls were paid, and I determined to become proficient in time. Altho I realized I would have to commence at the bottom.

One day I was returning from answering an advertisement. The man had been very unlike the ones of whom I have spoken. I felt de-

pressed, insulted by his tone, more than by what he had actually put into words. I took a walk along Michigan Avenue. I wanted to be alone.

I had worn the plainest, simplest dress I owned and Mother had altered for me after I explained that my clothes were too good for a working girl, too dressy. Yet she understood I must keep wearing them. I couldn't afford new, and the materials were so good they had not begun to show use.

I was walking along deep in thought when I heard a voice exclaim: "Why, Zena Stewart!" And Jack Pryor rushed up to me, and held out his hand.

"Where in the world did you come from?" he asked as he drew my hand within his arm, "and where have you been the last year?"

"I have been here in Chicago," I replied to his last question. I had no intention of telling him where I lived. The exquisite Jack Pryor would be shocked could he see my home—Mrs. Fagin's boarding house.

"Let us go somewhere and talk," he suggested. "I have a thousand questions to ask you."

I made no answer, but as we started to cross the street, there was an automobile accident, and as the people dashed to see what had happened I broke away from him and lost myself in the crowd. I ran thru a side street and boarded a car. It wasn't going toward home, but little I cared for that! All I wanted was to escape from Jack and his "thousand questions."

All the rest of the day I thought of that meeting. I knew positively that I never could have anything to do with the people I had known in New York when Dad was alive. The contrast in my position then and now was too great.

Then I was the indulged daughter of a rich man and a society woman. Now I was a poor working girl, and as such had nothing in common with them, or that part of my life I had left so long ago behind me.

I told Mary about meeting Jack Pryor. I knew she would never repeat anything I told her, and I was so disturbed that it was a relief to talk to someone.

"What made you run away? I don't quite understand," she remarked.

"Don't you see, Mary. He knew me when things were so different. I refused to marry him once a week in the old days. Now he wouldn't want me. I have changed so. Mary, while he is the same insouciant fellow he always was."

"I don't know what you mean by that big word, but I'll bet my new hat that cost me \$5 that if he ever wanted you, he hasn't stopped wanting. I'll bet a nickel you are in love with someone else you used to know, or you wouldn't have run away from him."

Love someone else—did I love Kenneth Lawrence?

"Yes—I do love Kenneth," I whispered question and answer as Mary left me a moment.

## Farm Tractor

There is only one model of the Fordson tractor. Henry Ford knows the wisdom of concentrating every energy on one model; his genius has been centered on building just one compact, easily operated tractor—a tractor useful on small farms or large farms, field work or belt work—and that will cost the least to maintain and operate.

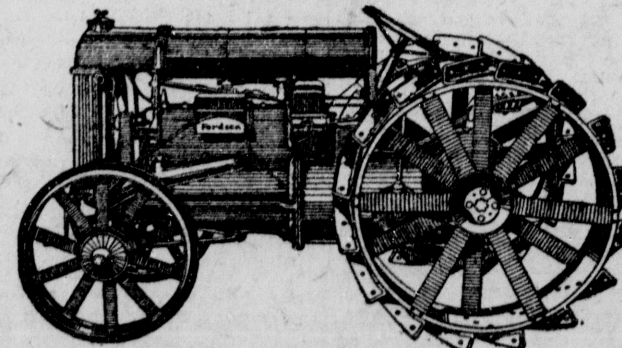

Henry Ford & Son have specialized—they have made one tractor and made it well. That means lower selling price for tractor parts, and a most serviceable, reliable tractor.

It means that the Fordson dealer is able to carry a goodly stock of tractor parts, and that he can give prompt, efficient service to the Fordson farmer. The Fordson, like the Ford car, is a utility for use

during the entire year.

The demand for Fordsons is far greater than present production. Place your order now—if you delay, you may not be able to get your tractor when you want it. Order now—it is your protection.
